SUPERVISED GRADING INSPECTION VERIFICATION (To be Filed in Duplicate at the City Office)

Job Address or Tract No. _____ Permit No. _____

Owner: _____ Contractor: _____

ROUGH GRADING

A. **BY SOILS ENGINEER**

I verify that the earth fills placed on the following lots were installed upon competent and properly prepared base material and compacted under my supervision in compliance with requirements of the Building Code. I further verify that where the report or reports of an engineering geologist, relative to this site, have recommended the installation of buttress fills or similar stabilization measures, such earthwork construction has been completed in accordance with the approved design. Fill slope surfaces have been compacted in accordance with my recommendation. Subdrains have been provided where required.

Lot Nos. _____

See report dated _____ for compaction test data, recommended allowable soil bearing values and other special recommendations.

Expansive Soils [Yes] [No] Lot Nos. _____

Buttress Fills [Yes] [No] Lot Nos. _____

Remarks: _____

Engineer: _____ Reg. No. _____ Date _____

(Signature)

B. BY FIELD ENGINEER

I verify that rough grading of the lots listed below has been completed under my supervision and in conformance with the plans, therefore, marked APPROVED." The work verified as correct includes grading to approximate final elevations; staking or property lines; location and gradient of cut and fill slopes; location, cross-sectional configuration, and flow-line gradient of drainage swales and terraces (graded ready for paving; berms installed where indicated; and required drainage slopes provided on building pads.

Lot Nos. _____

Complete one of the following:

- As-built plans have been prepared.

Latest Plan Revision Date: _____ Engineer: _____

- There have been no changes in design subsequent to permit issuance.

Remarks: _____

Engineer: _____ Reg. No. _____ Date _____
(Signature)

C. BY GRADING CONTRACTOR

I verify that rough grading of the lots listed below have been completed under my supervision and in conformance with the plans, therefore, marked "APPROVED." The work verified as correct includes grading to approximate final elevations; location and gradient of cut and fill slopes; location of drainage swales and terraces (graded ready for paving); berms installed where indicated; and required drainage slopes provided on building pads.

Lot Nos. _____

- There have been no changes in design subsequent to permit issuance.

Remarks: _____

Engineer: _____ Reg. No. _____ Date _____
(Signature)

D. FINAL GRADNG VERIFICATION

I verify to the satisfactory completion of grading in accordance with the approved plans. All required drainage devices have been installed; slope planting established and irrigation systems provided (where required); adequate provisions have been made for drainage of surface waters from each building site; and included herewith, if required, is evidence of an effective rodent control program.

Lot Nos. _____

There have been no changes in design subsequent to permit issuance.

Remarks: _____

Engineer: _____ Reg. No. _____ Date _____
